To: Cassandra Crisp <sancreedparish@gmail.com>

Information Classification: PUBLIC

Good evening,

I will start my report with news that the framework for the CAPS has been signed off last week with it being a broad reaching framework so as not to impact the ability to add to as the CAPS progress and become at a level of attainment we wish for the communities we represent, Something I feel is important to have the ability to be flexible.

Also the issue of Mayor or no Mayor has been put in a box for the time being at least, something I am personally pleased with.

Some of you may have been contacted recently by people complaining about being contacted by the Council threatening to stop collecting their waste as they run legally or illegally holiday lets , Air b and b or other ways of letting all or part of the property without paying commercial waste charges.

The Council are taking this loss of revenue seriously and will pursue every avenue to recover this substantial loss to the tax paying public, Anyone can and should report this on the report it page at Cornwall Council.

The 20 is plenty rollout will commence shortly and west penwith is in the next round having been brought forward to accommodate approved network schemes at the same time.

The next two months will be busy for the CAPS setting the standards and the legal requirements for the added responsibility and funding formulas for each panel so the constitution can be tested to see if changes have to be implemented, That is the reason we can not meet before the Annual Meeting of the Full Council as any changes will need to be voted on by Full Council as it is outside the remit of the Cabinet.
